Dear Mr. Jackson:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the above referenced DWSR, dated July 27, 2015. The DWSR stated that two water wells were identified within one-half mile of the subject property- one industrial and one domestic. The groundwater well located closest to the site at 0.21-miles southeast of the subject property is stated to be utilized for industrial services, specifically utilized for a car wash business. The second groundwater well located at 0.37 miles southwest of the site is described as being a public supply well owned and operated by the city of Deer Park, and is located greater than 0.25-miles from the site. Additionally, the DWSR indicates that drinking water for the site and surrounding area is provided by the City of Deer Park municipal water. After careful review, TCEQ has determined that notifications of groundwater contamination under Texas Water Code (TWC) §26.40 are not necessary.

Please contact me by phone at (512) 239-3170 if you have any questions.

Sincerely,
