CENTRAL FILE ROOM

Subject: LEAD AND COPPER RULE
Invalidation of Public Water System "All Plastic Waivers"
MANVEL ROAD TERRACE SUBDIVISION - PWS ID No. TX0200102
BRAZORIA COUNTY, TEXAS

Dear Water System Official:

The Texas Commission on Environmental Quality (TCEQ) regulates community and nontransient noncommunity public water systems (PWSs) for the Lead and Copper Rule (LCR) under Title 30 Texas Administrative Code (TAC) §290.117. The TCEQ has completed a record review indicating that your PWS may have previously received an "All Plastic Waiver" concerning lead and copper compliance monitoring.

Based on the federal Lead and Copper Rule Minor Revisions (LCRMR) and TCEQ's rules, this letter is to notify you that all pre-existing state-approved "All Plastic Waivers" concerning lead and copper compliance monitoring are invalid. **Based on the federal provision and TCEQ's rules, your PWS is required to comply with all LCR regulations, including tap sample monitoring for lead and copper.**

The TCEQ has established lead and copper compliance monitoring schedules for **all** community and nontransient noncommunity PWSs. Please review the Texas Drinking Water Watch website at: <http://dww2.tceq.texas.gov/DWW/> for your water system's current lead and copper monitoring schedule.

If you have questions or require additional assistance concerning lead and copper monitoring requirements for your system, please contact Laurie Gehlsen at (512) 239-4660 or Claudia Solis at (512) 239-4654 with the Lead and Copper Program or the TCEQ Lead and Copper Rule program website at: http://www.tceq.texas.gov/drinkingwater/chemicals/lead_copper/lead-copper.html.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Chauvin".

Gary Chauvin, Manager
Public Drinking Water Section
Water Supply Division
