Tires - Registration No. 140053
Scrap Tire Generator - Transmittal of Registration
Tracking No. 22401596; RN101507945/CN602732828

Dear Ms. Persad:

The Texas Commission on Environmental Quality (TCEQ) Business and Program Services (BPS) Section has completed review of the above-referenced application for a scrap tire generator facility registration received on January 17, 2018, and revisions dated February 26, 2018. The facility is located at 2473 South Danville Drive, Abilene, Texas 79605. This application was submitted to comply with the requirements of Title 30 Texas Administrative Code (TAC) Chapter 328, Subchapter F, Section (§)328.55, §328.56 and §328.58.

Your registration authorization number is 140053. Please use this authorization number in all your correspondence and documentation related to this registration. If there is a change in the information provided in your application, including change in ownership or scrap tire management methods, please contact the BPS Section for guidance on revising your registration or submitting a new registration application, as appropriate.

As a registered scrap tire generator, you are authorized to store used tires, scrap tires, and tire pieces at the above-referenced facility address provided the tire quantities do not exceed 500 used or scrap tires (or weight equivalent tire pieces or any combination thereof) on the ground or 2,000 used or scrap tires (or weight equivalent tire pieces or any combination thereof) in enclosed and lockable containers.

If you store used or scrap tires in excess of 500 used or scrap tires (or weight equivalent tire pieces or any combination thereof) on the ground or 2,000 used or scrap tires (or weight equivalent tire pieces or any combination thereof) in trailers, you are required to obtain a scrap tire storage registration pursuant to 30 TAC §328.55.

If you have questions regarding this registration or the requirements related to scrap/used tire management, please contact Ms. Emilee Bell at (512) 239-2347.

Sincerely,
