Emission Reduction Credit (ERC) Creditability Technical Review

Project Number:	413421	Project Manager:	Jacob Morrison
Broker No.:	BKR1068	Company Name:	Emission Advisors, Inc.
Regulated Entity Reference No.:	N/A	Site Name:	N/A
Portfolio Number:	P3807	County:	Harris

Project Overview

Emission Advisors, Inc. submitted a Creditability Review of Emissions Credits application on September 11, 2018 for the review of VOC ERC certificate 2828.

ERC Creditability

Certificate 2828

The credits on this certificate were originally certified in certificate 2796 for 49.3 tpy VOC from the permanent shutdown and reduction in emissions from 36 facilities located at the Ascend Performance Materials Chocolate Bayou Complex on September 29, 2014 in Project 409296. The credits were transferred in their entirety from Ascend to the Phillips 66 Company in Project 409506.

Table 1 below lists the regulations that were evaluated in this project. There have been no new regulatory provisions that would have affected the facilities since project 409296 and the submission of this creditability review project. Therefore, certificate number 2828 still retains the certified amount of 49.3 tpy and the full amount is available.

Conclusion

From this review it has been determined that, as of October 4, 2018, the ERCs on certificate 2828 have not devalued.

Jacob,

Please review entire certificate. They had signed an agreement to sell 25.9 tons, that is why I put that in review.

Regards,
Mike Taylor

Subject: Request for Additional Information for VOC ERC certificate 2828 Re-Review

Mr. Taylor,

This e-mail is in response to the Creditability Review for Emission Credits application submitted to the Texas Commission on Environmental Quality (TCEQ) on 09/11/2018 (EBT Project Number 413421). The application requests certificate 2828 to be reviewed for 25.9 tons per year of VOC, however the full amount of this certificate is 49.3 tpy. What was the reason for not requesting the full review of the ERC?

Subject: ERC Creditability Review
ERC Certificate: 2828
Project Number: 413421

Dear Mr. Taylor:

This letter is in response to the Application for Creditability Review of Emission Credits submitted on September 11, 2018 requesting review of the volatile organic compounds (VOC) emission reduction credits (ERCs) in certificate 2828. The ERCs in certificate 2828 (original certificate 2796) were certified by Ascend Performance Materials Inc. in project 409296 from the permanent shutdown and reduction in emissions from 36 facilities at the Ascend Performance Materials Chocolate Bayou Complex.

The Texas Commission on Environmental Quality (TCEQ) has determined that as of October 4, 2018 there have been no regulatory changes that decrease the certified amount of ERCs available in certificate 2828. Changes to the representations made in the original ERC application or future regulatory actions could affect the amount of credits available for use in the certificate.

Additional information regarding this project and the site's portfolio is available online at http://www2.tceq.texas.gov/airperm/index.cfm?fuseaction=ebt_dpa.start. If you have questions concerning this project or the EBT program, please contact Jacob Morrison at (512) 239-3818 or Jacob.Morrison@tceq.texas.gov, or write to the TCEQ, Office of Air, Air Quality Division, MC-206, P.O. Box 13087, Austin, Texas 78711-3087.

This action is taken under authority delegated by the executive director of the TCEQ.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Huff".

Donna F. Huff, Director
Air Quality Division
