TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

April 2, 2019

RTCR/POPUP/0210016

CERTIFIED MAIL

GEORGE FAULKNER, PRESIDENT
PO BOX 250
WELLBORN, TX 77881-0250

Subject: Revised Total Coliform Rule Sampling Requirement - INCREASE
WELLBORN SUD - PWS ID # 0210016
BRAZOS County, Texas

Dear Public Water Supply Official:

A recent inspection by a Regional investigator of the Texas Commission on Environmental Quality (TCEQ) finds the population served by your public water supply was increased. This requires an adjustment in the minimum number of coliform monitoring samples that must be collected each month.

Previously, the population count for your system was 19068. This count has been updated to 25677 and results in an INCREASE of monthly samples that must be submitted from 20 to 30.

The new sampling requirement will be effective starting in May 2019.

This sample requirement is the minimum number of distribution samples that must be collected. You may collect more than this amount if necessary to adequately monitor your system.

If you have questions regarding this change, please call a member of the Drinking Water Assessment Team at (512) 239-4691 or TCEQ regional office.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Chauvin".
