Dear Mr. Salerno:

The Texas Commission on Environmental Quality (TCEQ) has received your notification dated February 22, 2007, in accordance with Title 30 Texas Administrative Code § 122.222 (30 TAC § 122.222) for the above-referenced permit.

Based on an evaluation of the submitted information, we have determined that the action described in the notification satisfies the criteria specified in 30 TAC § 122.222. Please maintain a copy of this letter and all related documentation with your Title V Federal Operating Permit (FOP).

Please note that the above-referenced permit was not changed or revised in response to your notification. It is the applicant's responsibility to submit all required information as indicated in 30 TAC § 122.132, including information describing the changes addressed in the Form OP-Notify (Off-Permit/Operational Flexibility Notification) with the renewal application in order to incorporate the changes resulting from the notification. Although the FOP document has not been updated or revised at this time, please note that the applicable requirements are enforceable as indicated in 30 TAC § 122.143(6).

In addition, it is the applicant's responsibility to notify the U.S. Environmental Protection Agency (EPA) Region 6 regarding off-permit/operational flexibility notification requirements as indicated in 30 TAC § 122.222(c). If you have not already done so, notify the EPA Region 6 at the following address:

Mr. Todd M. Salerno

Dear Mr. Salerno:

The Texas Commission on Environmental Quality (TCEQ) has received your notification dated July 10, 2007, in accordance with Title 30 Texas Administrative Code § 122.222 (30 TAC § 122.222) for the above-referenced permit.

Based on an evaluation of the submitted information, we have determined that the action described in the notification satisfies the criteria specified in 30 TAC § 122.222. Please maintain a copy of this letter and all related documentation with your Title V Federal Operating Permit (FOP).

Please note that the above-referenced permit was not changed or revised in response to your notification. It is the applicant's responsibility to submit all required information as indicated in 30 TAC § 122.132, including information describing the changes addressed in the Form OP-Notify (Off-Permit/Operational Flexibility Notification) with the renewal application in order to incorporate the changes resulting from the notification. Although the FOP document has not been updated or revised at this time, please note that the applicable requirements are enforceable as indicated in 30 TAC § 122.143(6).

Mr. Todd M. Salerno

COMPLIANCE & ENFORCEMENT

Dear Mr. Shankle:

Celanese Ltd (Celanese) submits this notification, in accordance with §30 TAC 122.222(k), for changes at the Pasadena Plant authorized by permit-by-rule. Changes associated with the current permit-by-rule action will not add or change the applicability for the existing tank 900-60.01. The required information for the proposed change is included on the enclosed OP-NOTIFY.

**Description of the Change:**

The §30 TAC 106.472 Permit-By-Rule action seek to authorize the storage of wastewater of the storage tank TK-60.01. There are no increases to production rates or changes to any other equipment than listed above as part of the change of service.

Should you have any questions concerning this notification, please contact Darren Hubbard of my staff at (713) 456-1504.

Sincerely,

Robert Berger  
Site Director

Polyvinyl Alcohol Unit  
Celanese Ltd., Pasadena Plant  
Pasadena, Texas  
TCEQ Air Account No. HX-2763-T  
CN600130850  
RN103012183  
FOP Permit Number: O-02308

Dear Mr. Shankle:

Celanese Ltd. submits this notification, in accordance with §30 TAC 122.222(k), for changes in the Polyvinyl Alcohol Unit authorized by permit-by-rule. The required information for the proposed change is included on the enclosed OP-NOTIFY.

**Description of the Change:**

Permit-by-rule 106.475 authorizes emissions associated with storage tanks storing VOC material. This permit-by-rule authorizes emission both hourly and annual increases of NO<sub>x</sub>, CO, and VOC associated with vapors routed to a boiler and flare system. Annual increases are 1.38 lb/hr and 0.52 tons per year VOC, 0.02 lb/hr and 0.01 tons per year CO, and <0.01 lb/hr and <0.01 tons per year NO<sub>x</sub>. Celanese is adding one additional requirement and will comply with 40 CFR 60.112b(b)(1).

Permit-by-rule 106.452 authorizes emissions from an enclosed abrasive cleaning machine. PM emissions from these activities are estimated at 0.08 tons per year. The PBR action will not add or change any applicable requirements or special terms in conditions in the current permit.

Should you have any questions concerning this notification, please contact Darren Hubbard of my staff at (713) 456-1504.

Sincerely,
