Re: Registration of Emissions Under §106.6 for MILLICAN 1 (BM0194R) in BRAZOS, Texas  
RN102559572

The attached PI-8 and other documentation are to be used to demonstrate that Chapter 122 (relating to Federal Operating Permits) does not apply to the referenced site. Devon as the owner and/or operator certifies and registers that the emissions from this site are below the emissions allowed under §106.4, as well as, those required for an operating permit under Chapter 122. The most recent PI-7, PI-1 or PI-1S and documents attached thereto shall be used as documentation for the basis of emissions estimates and the written statement certifying that the maximum emissions rates listed thereon reflect the reasonably anticipated maximums for operations at the account. This documentation may be superseded by later PI-7, PI-1, PI-1S and PI-8 registrations.

Devon understands if the emissions rates established on the attached PI-8 are to ever be exceeded that an operating permit under Chapter 122 will be required. Thank you for consideration in this matter and please contact me at 713.377.6084 if further assistance is required.

Sincerely,

Scott Wallace
