Garland, Texas 75046-1148

Re: Effective Permit Approval
Initial Issuance
Permit Number: O2594
General Dynamics OTS (Garland), L.P.
Garland Plant
Garland, Dallas County
Regulated Entity Number: RN102660909
Customer Reference Number: CN602483067

Dear Mr. McKenrick:

The effective federal operating permit (FOP) for General Dynamics OTS (Garland), L.P., Garland Plant is enclosed. This FOP constitutes authority to operate the emission units identified in the FOP application.

All site operating permits are subject to public petition for 60 days following the expiration of the 45-day U.S. Environmental Protection Agency (EPA) review. The public petition period for the FOP extends from June 11, 2005 until August 9, 2005. If the EPA receives a valid petition and objects to the above-referenced permit, you will be notified promptly by the Texas Commission on Environmental Quality (TCEQ).

It should be noted that from the date of this letter General Dynamics OTS (Garland), L.P., Garland Plant must operate in accordance with the requirements of Title 30 Texas Administrative Code (30 TAC) Chapter 122 and the FOP. Some of the terms and conditions contained in the FOP include recordkeeping conditions, reporting conditions (which includes deviation reporting), and compliance certification conditions. All reports, along with any questions regarding the reports, shall be forwarded to the TCEQ's Dallas/Fort Worth Regional Office, 2309 Gravel Drive, Fort Worth, Texas 76118.

Mr. Daniel McKenrick

Page 2

Consistent with 30 TAC Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former TCEQ account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.

Thank you again for your cooperation in this matter. If you have questions concerning the review or this notice, please contact Mr. Oscar F. Pérez at (512) 239-6611.

Sincerely,

Glenn Shankle
Executive Director
Texas Commission on Environmental Quality
