Re: Accepted Renewal Application  
Federal Operating Permit Application  
Project Number: 7115  
Permit Number: O50  
TXU Generation Company, L.P.  
Lake Hubbard Steam Electric Station  
Dallas, Dallas County  
Regulated Entity Number: RN100673490  
Customer Reference Number: CN600135511

Dear Senator Deuell:

As required by the Texas Clean Air Act § 382.0516, as codified in the Texas Health and Safety Code, this letter notifies you that the Texas Commission on Environmental Quality (TCEQ) has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant has been instructed to publish a formal newspaper public notice within the next 30 days. The notice will inform the public of their right to make comments or request a public hearing.

The FOP program regulates both new and **existing** major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former TCEQ account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.

This letter is being sent to you for information only and no action is required. If you need further information, please contact me at (512) 239-1250.

Sincerely,

Richard A. Hyde, P.E., Director

Air Permits Division  
Office of Permitting, Remediation, and Registration
