Re: Accepted Renewal Application
Federal Operating Permit Application
Project Number: 6339
Permit Number: 0951
Lobo Pipeline Company, L.P.
La Perla Compressor Station
Larado, Zapata County
Regulated Entity Number: RN100216886
Customer Reference Number: CN600128870

Dear Senator Zaffirini:

As required by the Texas Clean Air Act § 382.0516, as codified in the Texas Health and Safety Code, this letter notifies you that the Texas Commission on Environmental Quality (TCEQ) has received a federal operating permit (FOP) renewal application for a site located in your district.

The FOP program regulates both new and **existing** major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former TCEQ account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.

~~This letter is being sent to you for information only and no action is required. If you need further information, please contact me at (512) 239-1250.~~

Sincerely,

Richard A. Hyde, P.E., Director
Air Permits Division
Office of Permitting, Remediation, and Registration
