Dear Mr. Hilderbran:

As required by the Texas Clean Air Act § 382.0516, as codified in the Texas Health and Safety Code, this letter notifies you that the Texas Commission on Environmental Quality (TCEQ) has received a federal operating permit (FOP) initial application for a site located in your district.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site.

Please reference the regulated entity number (RN), customer reference number (CN), and permit number noted in this document in all your future correspondence for the referenced facility or site. The RN replaces the former TCEQ account number for the facility (if portable) or site (if permanent). The CN is a unique number assigned to the company or corporation and applies to all facilities and sites owned or operated by this company or corporation.

This letter is being sent to you for information only and no action is required. If you need further

A handwritten signature in black ink, appearing to be 'D. Hilderbran', is written over the text 'further'.

information, please contact me at (512) 239-1250.

Sincerely,
