TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

December 11, 2012

MR. PHILLIP NODECKER, GENERAL MANAGER
IMPREGLON SURFACE ENGINEERING INC.
6421 CALLE LOZANA DR
HOUSTON, TX 77041-2559

Re: Transfer of Ownership
Customer Number: CN604162628
Regulated Entity Number: RN100597004
County: HARRIS
Account Number: HGo820Q

Dear Mr. Nodecker:

Thank you for the letter received November 13, 2012, notifying us of the ownership change. Your letter states that IMPREGLON SURFACE ENGINEERING INC is now the Owner and Operator of the facility listed above. The following air authorizations have been updated to reflect the transfers.

| Permit / Reg. Number | Permit / Reg. Expiration Date | Previous Permittee / Registrant |
|---------------------------------|--|--|
| 19127 | July 27, 2017 | Coating Applicators Corp. |
| 87878 | n/a | Coating Applicators Corp. |

We understand that there will be no change in the type of pollutants emitted and no increase in the quantity of emissions. As the new permittee of the facility, you have committed to maintain compliance with all air quality regulations of the Texas Commission on Environmental Quality and the requirements of this permit at all times.

While doing these changes and after talking with you, we discovered that RN102299815 RN100597004, were duplicates, showing the same address, latitude and longitude. They were merged today and RN100597004 is the remaining RN.

MR. PHILLIP NODECKER

RECEIVED

Re: Change of Name/Ownership
New Customer/Owner - Impreglon Surface Engineering, Inc.
Former CN603028168 (Previous Owner Coating Applicators Corporation)
Owner Address - 6421 Calle Lozano Drive, Houston, TX 77041
RN100597004 and RN102299815

To Whom it May Concern:

Enclosed please find the change of name/ownership form and 2 CORE forms which reflect the new ownership by Impreglon Surface Engineering, Inc. of the following regulated entity:

Impreglon Surface Engineering, Inc. — Satsuma Facility
7134 Satsuma Drive, Houston, TX 77041

The CORE forms were submitted under separate cover to TCEQ Central Registry, and a new CN will need to be assigned. This facility was formerly owned by Coating Applicators Corporation, and the regulated entity was then known as Hitemco Southwest.

For unknown reasons, this facility has 2 separate RNs. The air account no. (HG-0820-Q) is currently under RN100597004, and the air permit (38803) and PBR registration (81591) are under RN102299815. Impreglon requests that TCEQ move the air account from RN100597004 to RN102299815 so that only the latter RN is actively used for all air authorizations. Further, please cancel PBR registration 81591 as it should have been voided when it was rolled into permit 38803 in 2009.

TCEQ APIRT
November 8, 2012
Page 2

Please transfer the air program authorizations to the new owner, and correctly show the PBR as canceled. If you have any questions about this request, please contact me at (713) 466-9655.

Sincerely,

Philip Nodecker
General Manager

To: www-registry
Subject: Merge RN100597004 & RN102299815

Both of these RNs have the same site address and the same lat & long. I spoke to Philip Nodecker at Impreglon and he confirmed that these RNs were both at the same site. Please merge these RNs. RN100597004 is the older RN, so I assume it should be the remaining RN.

Let me know. Thanks.

Subject: Merge Request - RN102299815 into RN100597004
Importance: High

Central Registry has found two RNs for the same location.

We are requesting that RN102299815 - "**SATSUMA FACILITY**"
be merged into RN100597004 - "**HITEMCO SOUTHWEST**".

The RE Name for RN100597004 will also be changed from "**HITEMCO SOUTHWEST**"
to "**SATSUMA FACILITY**" per attached letter/cdf.

If required, the RE Name can be kept at the additional id level.

Let me know if you approve.

We were not able to do merges for almost two months.

The problem has been corrected, so we are now working on a back-log of merges.

Yours will be done as soon as possible.

Subject: RE: Move/Copy permits/registrations

I wanted to get this done before I forgot about it or it was other wise lost.

I have moved the following permits in NSR from RN102299815 to RN100597004:

38803
6390
6390A
6390B
81591

The status has been corrected between NSR and CR for 38803 and 81591.

This should take care of what you were trying to do between these RNs.

Let me know if there was something else.

Mostly done.

38803 and 81591 are back to the status they should have been before the copy was done.

When you use the Move option, you will find you can also move the Cancelled / Voided permits to the new RN since the purpose is to correct RNs that are wrong where the Copy is more to handle RNs that are historically correct but not correct for future projects.

Once the permits are moved in NSR, let me know. I will then use NSR to fix the status in CR.

Thanks

It looks like you are doing a copy. That changes the permits on the existing RN from Issued to Transfer and only changes the RN on the Effective record so that future projects can be created using the new RN.

In this case, it looks like RN102299815 has been "merged" in CR with RN100597004. RN102299815 is now longer considered a valid RN so the old projects need to be moved off of it and onto the new RN. You should have done a Move so that all the records were updated with the new RN.

I will have to go back through and reset the status on the old records and change the effective back to the old RN before another attempt to move the permits to the new RN is done.

From RN102299815 to RN100597004. Lou, I've done it twice, but when I go back and do a permit search, it's still on the old RN. What am I doing wrong? Thanks.

Sandra
