We understand that there will be no change in the type of pollutants emitted and no increase in the quantity of emissions. As the new permittee of the facility, you have committed to maintain compliance with all air quality regulations of the Texas Commission on Environmental Quality (TCEQ) and the requirements of this permit at all times.

If you are a Title V federal operating permit holder, Title 30 Texas Administrative Code § 122.211 requires that changes to the permit identification of ownership or operational control of a site are an administrative revision to the permit. Such changes must be facilitated by a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the old and new permit holder. This written agreement must be maintained with the permit.

Re: TekOil and Gas Gulf Coast LLC CN 603201971

Our Client TekOil and Gas Gulf Coast, LLC has recently purchased a number of Regulated Entities from Masters Resources. We have attached Core Data Forms to indicate the transfers. There are no current changes to the equipment previously permitted by Masters Resources, LLC therefore, we request a transfer of the PBR's as listed in the Core Data Forms. Future changes will be listed on and forwarded on appropriate TCEQ forms PI-7 with related attachments. While this data form should be sufficient to meet the MECT program transfers, we will also forward notice of ownership change to that section. Please feel free to contact me at 281-240-7171 should you have any questions. Thank you.

Sincerely,

Warren D. Graef
