Re: Permit by Rule Registration
Odessa Chemical Terminal
Odessa, Ector County
Account No. EB-0075-W

Dear Mr. Claunch:

This is in response to your letter dated August 20, 2001 concerning the proposed addition of two Low Gel Concentration storage tanks at the Odessa Chemical Terminal located near Odessa, Ector County. After evaluation of the information which you have furnished, we have determined that your project is authorized under Title 30 Texas Administrative Code (TAC) Section 106.472 if constructed and operated as described in your letter. We understand that the gel to be stored is a mixture of diesel fuel and guar gum.

This permit by rule was authorized by the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106. A copy of the permit by rule in effect at the time of this registration is enclosed. You must construct, install, or modify facilities in accordance with the version of the permit by rule in effect when construction, installation, or modification actually begins (see 30 TAC § 106.4[a][5]). After completion of construction, installation, or modification, the facility shall be operated in compliance with all the applicable conditions of the claimed permit by rule and 30 TAC § 106.4.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Mr. Jim Claunch
