Dear Ms. Hurst:

This is in response to your request to register the operations of your extrusion lines, resin storage silos, and printing presses under 30 Texas Administrative Code (TAC) Sections 106.221, 106.393, and 106.418 at your facility near Waxahachie, Ellis County. The information submitted in support of your request has been evaluated and found to be insufficient to determine whether all the requirements of the permit by rule claimed in your registration request and/or 30 TAC Chapter 106 have been met. Therefore, we cannot confirm your claim of this permit by rule at this time.

Deficiencies are summarized below:

1. Please provide a detailed process and equipment description for each of your claimed permits by rule. The description should include descriptions and specifications of any control devices.
2. Provide estimates and calculations of emissions for each process.
3. Provide a summary of all other previously authorized emission sources, if any, at your site.

You may resubmit, with appropriate corrections, a revised letter, and/or a new permit by rule registration request (PI-7), or a permit/amendment application (PI-1). Please include all previously-assigned Texas Natural Resource Conservation Commission Account ID, permit, or permit by rule registration numbers in your new submittal.

You are reminded that Sections 382.0518(a) and 382.057 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, provide that a construction permit must be
