Re: Permit by Rule Registration
Wolverine Flexographic Printing Presses
Grand Prairie, Dallas County
Account ID No. DB-0658-J

Dear Mr. Smith:

This is in response to your permit by rule registration, Form PI-7, concerning the installation of three Wolverine Flexographic Printing Presses in the Extrusion Production areas of Buildings No. 1 and 4 at your Grand Prairie Facility located at 2000 West Marshall Drive in Grand Prairie, Dallas County. We understand that total emissions from all printing operations on the property covered by permit by rule will not exceed 25 tons per year of volatile organic compounds. The Dallas/Fort Worth area is designated an ozone non-attainment area, therefore, these facilities will meet the requirements of 30 Texas Administrative Code (TAC) 115, Subchapters B and E.

After evaluation of the information which you have furnished, we have determined that your installation is authorized under Title 30 TAC Section 106.418 if constructed and operated as described in your registration request. This permit by rule was authorized by the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106.

A copy of the permit by rule in effect at the time of this registration is enclosed. You must construct, install, or modify facilities in accordance with the version of the permit by rule in effect when construction, installation, or modification actually begins (see 30 TAC §106.4[a][5]). After completion of construction, installation, or modification, the facility shall be operated in compliance with the all applicable conditions of the claimed permit by rule and 30 TAC §106.4.

You are reminded that regardless of whether a permit is required, these facilities must

be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Mr. James Smith
