Re: Permit by Rule Registration  
Tyson Foods Facility  
Seguin, Guadalupe County  
Account No. GL-0019-I

Dear Mr. Couch:

This is in response to your letter dated February 6, 2001 concerning the proposed changes to the air pollution control device located at the Tyson Foods-Seguin Facility in Seguin, Guadalupe County. We understand that the operational changes will vary from those represented in Permit No. 4092 in the following manner:

1. The chemical mixture will be injected into a pipe leading directly to the scrubber instead of being injected directly into the scrubber; and
2. The pH level will be maintained at an optimal level of below 4.0 instead of between 5.5-6.5.

You have indicated that these changes listed above will not cause an increase in emissions nor a change in the characteristic of emissions. After evaluation of the information which you have furnished, we have determined that your project does not require prior authorization if operated as described in your letter.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the Texas Natural Resource Conservation Commission and of the U.S. Environmental Protection Agency at all times.

Mr. John W. Couch
