Re: Permit by Rule Registration  
Aircraft Brake Cleaning  
Dallas Fort Worth (DFW) Airport, Tarrant County  
Account ID No. TA-4063-N

Dear Mr. Thunem:

This is in response to your permit by rule registration, Form PI-7, concerning the installation of the tank for aircraft brake and tire cleaning near the DFW Airport, Tarrant County. We understand that the tank will contain an aqueous cleaning solution with a volatile organic compounds concentration of approximately 0.05 pounds per gallon.

After evaluation of the information which you have furnished, we have determined that your installation is authorized under 30 Texas Administrative Code (TAC) Section 106.375 if constructed and operated as described in your registration request. This permit by rule was authorized by the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106.

A copy of the permit by rule in effect at the time of this registration is enclosed. You must construct, install, or modify facilities in accordance with the version of the permit by rule in effect when construction, installation, or modification actually begins [see 30 TAC §106.4(a)(5)]. After completion of construction, installation, or modification, the facility shall be operated in compliance with the all applicable conditions of the claimed permit by rule and 30 TAC §106.4.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.
