Re: Permit by Rule Registration  
Wastewater Evaporator  
Haltom City, Tarrant County

Dear Mr. Shafer:

This is in response to your request to register the installation of a wastewater evaporator under 30 Texas Administrative Code (TAC) Section 116.119(a)(4) at your facility at 2232 Solona Street in Haltom City, Tarrant County. The information submitted in support of your request has been evaluated and found to show that the installation of the wastewater evaporator requires permitting review in accordance with 30 TAC Chapter 116.

As represented, the evaporator does not meet a permit by rule under 30 TAC Chapter 106 nor is it on the "List of De Minimis Facilities or Sources" referenced in §116.119. Furthermore, the Permit by Rule Team of the TNRCC is not able to make a "de minimis" determination under §116.119(a)(4). Your petition should be included as part of a permit application.

You are reminded that Sections 382.0518(a) and 382.057 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, provide that a construction permit must be obtained or an exemption fully complied with before work is begun on the construction of a new facility or modification of an existing facility that may emit air contaminants.

Your cooperation in this matter is appreciated. If you have any further questions, please call Mr. Angel Tomasino at (210) 403-4032 or write to him at Texas Natural Resource Conservation Commission, Office of Permitting, Remediation, and Registration, Air Permits Division (MC-162), P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

Duncan F. Stewart, P.E., Manager  
Permit By Rule/General Operating Permits Section  
Air Permits Division

DS/AT/jr
