Re: Permit by Rule Registration
Sand Plant
Wilmer, Dallas County

Dear Mr. Morris:

This is in response to your letter dated November 21, 2000, concerning the proposed wet sand production and processing facility near Beltline Road, Wilmer, Dallas County. After evaluation of the information which you have furnished, we have determined that your project is authorized under 30 Texas Administrative Code (TAC) Sections 106.143 and 106.149 if constructed and operated as described in your letter. We understand that this facility will not exceed a processing rate of 50 tons per hour.

These permits by rule were authorized by the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106. Copies of the permits by rule in effect at the time of this registration are enclosed. You must construct, install, or modify facilities in accordance with the version of the permits by rule in effect when construction, installation, or modification actually begins (see 30 TAC §106.4[a][5]). After completion of construction, installation, or modification, the facility shall be operated in compliance with the all applicable conditions of the claimed permits by rule and 30 TAC §106.4."

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Mr. Kirk Morris
