Re: Permit by Rule Registration
Diesel Emergency Generators
MCI World Com Facility
Richardson, Dallas County

Dear Ms. Mehta:

This is in response to your permit by rule Form PI-8, concerning the proposed installation of four 2,000 kW generators and one 1,250 kW generator at the above-referenced site located at 400 International Parkway in Richardson, Dallas County. It is anticipated that the unit will operate for approximately 500 hours per year; only during emergencies, commercial power interruptions, and general preventive maintenance of the primary unit and the annual operating time shall not exceed 10 percent of the normal annual operating schedule of the primary equipment.

The routine emissions associated with engine's operation are estimated to be well within exemption pollutant limitations.

After evaluation of the information which you have furnished, we have determined that your proposed installation is authorized under 30 Texas Administrative Code (TAC) Section 106.511 if constructed and operated as described in your registration request. This permit by rule was authorized by the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106. A copy of the permit by rule in effect at the time of this registration is enclosed. You must operate in accordance with all requirements of the enclosed permit by rule.

Ms. Karen Mehta

Re: Permit No. X

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Your cooperation in this matter is appreciated. If you have any questions concerning this permit by rule, please call Ms. Nancy A. Akintan at (713) 767-3773 or write to her at Texas Natural Resource Conservation Commission, Office of Permitting, Remediation, and Registration, Air Permits Division (MC-162), P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

Tammy Villarreal
