

The Honorable David Sibley
Texas State Senator
200 Palo Pinto Street
Weatherford, Texas 76086

Re: Space Vehicle Fuel Production and
Engine Testing Site Application

Dear Senator Sibley:

Pursuant to the requirements of Section 382.0516 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, this letter is to notify you of the recent receipt of an application for a Space Vehicle Fuel Production and Engine Testing for a facility which is located in your district. As part of the air permitting process, this applicant will be required to publish a formal public notice in a newspaper of general circulation in the municipality nearest to the facility location. The notice will inform the public of their right to ask questions, make comments, request a public hearing, or request a public meeting. This letter is being sent to you for information only and no action is required. The status of all pending air quality applications are listed by region and may be viewed by visiting our agency web site at www.tnrcc.state.tx.us/updated/air/nsr/nsrmap.shtml.

Beal Aerospace Technologies, Inc., 8000 Dallas North Parkway, Frisco, Texas, 75034, has applied to construct a Space Vehicle Fuel Production and Engine Testing Site at 17000 Beal Road, McGregor, Texas 76657. The permit number is 43047.

If you need further information or have any questions, please call Mr. John C. Gott, P.E., at (512) 239-1238 or write to him at Texas Natural Resource Conservation Commission, Office of Permitting, Remediation, and Registration, Air Permits Division (MC-162), P.O. Box 13087, Austin, Texas 78711-3087.

Respectfully,

Victoria J. L. Hsu, P.E.
Director
Air Permits Division

VH/JG/pl

The Honorable Jim Dunnam
Texas State Representative
P.O. Box 1962
Waco, Texas 76703

Re: Space Vehicle Fuel Production and
Engine Testing Site Application

Dear Representative Dunnam:

Pursuant to the requirements of Section 382.0516 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, this letter is to notify you of the recent receipt of an application for Space Vehicle Fuel Production and Engine Testing for a facility which is located in your district. As part of the air permitting process, this applicant will be required to publish a formal public notice in a newspaper of general circulation in the municipality nearest to the facility location. The notice will inform the public of their right to ask questions, make comments, request a public hearing, or request a public meeting. This letter is being sent to you for information only and no action is required. Re: Declaration of Administrative Completeness
Permit No. 43047
Space Vehicle Fuel Production and
Engine Testing Site Application
McGregor, McLennan County
Account ID No. MB-0470-E

Dear Dr. Toor:

We have declared the above-referenced application, received on December 7, 1999 administratively complete on January 5, 2000.

You are now required to publish notice of your proposed activity. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- * Notices for Newspaper Publication (Examples A and B)
- * Instructions for Public Notice
- * Bilingual Notice Verification Form
- * Sign Posting and Application Availability Verification Form
- * Affidavit of Publication
- * Notification List
- * Sign Posting Example (Example C)

Please note that it is VERY IMPORTANT that you follow ALL directions in the enclosed instructions. If you do not, you may be required to republish the notice. A common mistake is the unauthorized changing of notice wording or font. If you have any questions, please contact us before you proceed with publication.

The following items and time limitations are also described in the enclosed instructions. However, due to their importance we want to highlight them for you.

1. Publish the enclosed notice and post signs within **30 calendar days** after your

application is declared administratively complete (see this letter's first paragraph for the declaration date).

Mr. Irfan A. Toor
Page 2
January 5, 2000

Re: Permit No. 43047

2. You may also be required to publish notice and post signs in an alternate language (refer to the enclosed Instructions for Public Notice and Bilingual Notice Verification Form). Spanish and other alternate language versions of notice text and sign posting are available upon request by contacting the project reviewer, Mr. John C. Gott, P.E., at (512) 239-1238.
3. Place a copy of your application in a public place in the county where the facilities are or will be located. This copy must be accessible to the public for review and copying and remain in place throughout the comment period.
4. Return original newspaper tear sheets of the notices, which show publication date and newspaper name, to the TNRCC Office of the Chief Clerk and copies to those on the enclosed Notification List within **10 business days** after notices are published.
5. Return the original enclosed Affidavit of Publication and Bilingual Notice Verification Form to the Office of the Chief Clerk and copies to those on the enclosed Notification List within **30 calendar days** after the notice is published in the newspaper.
6. Return the Sign Posting and File Application Availability Verification Form to the Office of the Chief Clerk and copies to those on the enclosed Notification List within **10 business days** after end of the comment period listed in the notices.

If you do not comply with all requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions. Please note that as your application undergoes the technical review, we may request additional information.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300. If you have any other questions, please contact Mr. John C. Gott, P.E., at (512) 239-1238.

Sincerely,

Victoria J. L. Hsu, P.E.
Director
Air Permits Division

Re: Permit No. 43047

Enclosures

EXAMPLE A

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT

PERMIT NO. 43047

APPLICATION Beal Aerospace Technologies, Inc., ,Frisco, Texas 75034, has applied to the Texas Natural Resource Conservation Commission (TNRCC) for Space Vehicle Fuel Production and Engine Testing Site Air Quality Permit No. 43047 which would authorize construction and operation of the referenced facility at McGregor, McLennan County, Texas. The facility will emit the following air contaminants: hydrogen peroxide, carbon monoxide, nitrogen oxides, particulate matter less than or equal to 10 microns in diameter, sulfur oxides, hydrocarbons from fuel oil, kerosene, and solvents.

This application was submitted to the TNRCC on December 7, 1999 . The application is available for viewing and copying at the TNRCC Central Office and the TNRCC Regional Office 6801 Sanger Avenue, Suite 2500 in Waco, Texas. The facility's compliance file, if any exists, is available for public review in the Regional Office of the TNRCC.

The TNRCC Executive Director has determined the application is administratively complete and will conduct a technical review of the application.

MAILING LIST You may ask to be placed on a mailing list to obtain additional information regarding this application. To get on the mailing list for this application, send a request to the TNRCC Office of the Chief Clerk at the address provided in the information section below.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments or request a public meeting about this application or request a contested case hearing to the TNRCC Office of the Chief Clerk at the address provided in the information section below. The TNRCC will consider all public comments in developing a final decision on the application. **The deadline to submit public comments is 30 days after newspaper notice is published.** After the deadline for public comments, the TNRCC Executive Director will prepare a response to all relevant and material or significant public comments.

The purpose of a public meeting is to provide the opportunity to submit written or oral comments or ask questions about the application. A public meeting about the application will be held if the TNRCC Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

If only comments are received on the application, the response to comments, along with notice of the TNRCC Executive Director's action on the application, will be mailed to everyone who submitted comments or is on the mailing list for this application.

If a hearing request is filed as discussed in the next section of this notice, the TNRCC Executive Director will issue a preliminary decision on the application following technical review. Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list of the mailing list for this application. That notice will contain the final deadline for submitting public.

EXAMPLE A
Page 2

After the final deadline for public comments following any required Notice of Application and Preliminary Decision, the TNRCC Executive Director will consider the comments and prepare a response to all relevant and material, or significant public comments. The response to comments, along with the TNRCC Executive Director's decision on the application, will then be mailed to everyone who submitted public comments or who is on a mailing list for this application.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing. A contested case hearing is a legal proceeding similar to a civil trial in state district court. Unless a written request for a contested case hearing is filed within 30 days from this notice, the TNRCC Executive Director may approve the application. **If no hearing request is received within this 30-day period, no further opportunity for hearing will be provided.** A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on those issues that were raised during the public comment period and not withdrawn. Issues that are not raised in the public comment period may not be considered during a hearing.

A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing;" (4) a specific description of how you would be affected by the application and adversely affected by air emissions in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 30 days following this notice to the Office of the Chief Clerk, at the address provided in the information section below.

If a hearing request is filed within 30 days following this notice, the TNRCC Executive Director will not take action on the application. Following the close of all applicable comment and request periods, the TNRCC Executive Director will forward the application and any requests for contested case hearing to the TNRCC Commissioners for their consideration at a scheduled Commission meeting. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact relating to relevant and material air quality concerns raised during the comment period. Issues such as property value, waste disposal, water quality, noise, traffic safety, or zoning are not considered relevant and material to this air quality application.

INFORMATION Written public comments, requests for a public meeting, or requests for a hearing should be submitted to the Office of the Chief Clerk, MC-105, TNRCC, P.O. Box 13087, Austin, Texas 78711-3087. If you need more information about this permit application or the permitting process, please call the TNRCC Office of Public Assistance, Toll Free, at 1-800-687-4040. General information regarding the TNRCC can be found at www.tnrcc.state.tx.us.

Further information may also be obtained from Beal Aerospace Technologies, Inc., at the address stated above or by calling (972) 668-2000/Fax (972) 668-2001 at 8000 Dallas North Parkway, Frisco, Texas 75034.

TEXAS NATURAL RESOURCE CONSERVATION COMMISSION

INSTRUCTIONS FOR PUBLIC NOTICE For New Source Review Air Permit

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN PERMIT

Your application has been declared administratively complete and now you must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TNRCC.

Newspaper Notice

- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* within **30 calendar days** after the date of administrative completeness.
- You must publish the enclosed *Notice of Receipt of Application and Intent to Obtain Permit* at your expense, in a newspaper that is a newspaper of general circulation in the municipality where the facilities are or will be located. If the facilities are not located within a municipality, the newspaper should be of general circulation in the municipality nearest the location.
- You must publish this notice in one issue of any applicable newspaper.
- You will find two example notices enclosed in this package. Example A must be published in the "public notice" section of the newspaper. Example B must be published in the **same issue** of the newspaper as Example A; however, it must be published in a prominent location (other than the public notice section). Example B notice is intended to refer the public to the "public notice" section of the newspaper where Example A provides more information regarding the permit application. Example B must be a total of at least **6 column inches (standard advertising units)** with a height of at least **3 inches** and a horizontal dimension of 2 column widths. If the newspaper chosen does not use standard advertising units for measurement, the notice must be at least **12 square inches** with the shortest side of at least 3 inches.
- Companies that meet the TNRCC's definition of a small business and will not have a significant impact on air quality are not required to publish Example B. Contact the TNRCC to determine if you qualify for this exemption.
- The bold text of the enclosed notice must be printed in the newspaper in a font style or size that distinguishes it from the rest of the notice (i.e., **bold font, italics**).

Alternate Language Notice

In certain circumstances, applicants for air permits must complete notice in alternate languages

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are enrolled in a bilingual education program, some alternate language notice is required (signs notice, or signs and newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the above-mentioned schools to trigger the alternate language notice requirement. If there are students which would normally attend the nearest schools are taught in a bilingual education program at a different location, alternate language notice is required.
- If triggered, publications of alternate language notices must be made in a newspaper or publication printed in each language taught in the bilingual education program. This notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.
- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. If a general circulation newspaper or publication printed in such language cannot be found, publishing in that language is not required, but signs must still be posted adjacent to each English language sign. Publication in an alternate language section or insertion within a large publication which is not printed primarily in that alternate language does not satisfy these requirements.
- The applicant has the burden to demonstrate compliance with these requirements. To assist applicants to meet these requirements, the TNRCC has provided a *Bilingual Notice Verification Form* (enclosed).
 - It is suggested the applicant work with the local school district to do the following:
 - (a) determine if a bilingual program is required in the district;
 - (b) determine which language is required by the bilingual program;
 - (c) locate the nearest elementary and middle schools; and
 - (d) determine if any students attending either school are entitled to be enrolled in a bilingual educational program.

If you determine that you must meet the alternate language notice requirements, public notice and sign examples in Spanish and other alternate languages are available from the TNRCC upon request.

Proof of Publication

- You must submit **original newspaper tear sheets** of the published notices which shows the date of publication and the name of the newspaper to the TNRCC Office of the Chief Clerk within **10 business** days after the date of publication.
- You must submit an **original publisher's affidavit** to the Office of the Chief Clerk within **30 calendar days** after the date of publication. **You must use the enclosed affidavit.** The affidavit must clearly identify the applicant's name and permit number.
 - You are encouraged to submit the affidavit with the original newspaper tear sheets described above; however, the affidavit must be submitted no later than **30 calendar days** after publication of notice.

- The **original publisher's affidavit** and **original newspaper tear sheets of the published notices** must be mailed to:

TNRCC
Office of the Chief Clerk, MC-105
Attn: Notice Team
P.O. Box 13087
Austin, Texas 78711-3087

- Please ensure that the affidavit and newspaper tear sheets you send to the TNRCC Chief Clerk are originals and that all blanks on the affidavit are filled in correctly. Photocopies of newspaper tear sheets and affidavits are not acceptable.

- Photocopies of newspaper tear sheets, affidavits, and verifications must **also** be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication on time, then** the TNRCC may suspend further processing on your application or take other actions.

Sign Posting

Applicants for air quality permits must also post signs.

- Signs must be in place on the first day of publication in a newspaper and must remain in place and be legible for the entire comment period.
- The information enclosed (Example C) is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Any changes to the text prepared by the TNRCC need to be approved by the Agency.
- Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a public street, road, or highway. Signs must be spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs, are required along any property line paralleling a public street, road, or highway. Sign(s) must be placed at whatever height above the ground is necessary for sign(s) to be 100 percent visible from the street.
- All lettering on the sign must be **1½"** in height. The sign must be at least **18"** wide and **28"** tall.
- Alternative language signs are required if alternate notice is required, even if no newspaper can be found. Alternate language sign examples are available upon request from the TNRCC.
- You must submit verification of sign posting within **10 business days** after end of the comment period.

Application in a Public Place

- You must provide a copy of the administratively complete application at a public place for review and copying by the public. This place must be in the county in which the facility is located or proposed to be located.
- A public place is one that is publicly owned or operated. For example, libraries, county courthouses, or city halls.

- The administratively complete application must be available beginning on the first day of newspaper publication and remain available until the end of the comment period.
- If the application is submitted to the TNRCC with information marked as confidential, you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the TNRCC Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."
- You must submit verification of file availability within **10 business days** after end of the comment period.

General Information

When contacting the Commission regarding this application, please refer to the permit number at the top of the *Notice of Application and Intent to Obtain Permit*.

If you have questions or need assistance regarding publication requirements, please contact the TNRCC Office of the Chief Clerk at (512) 239-3300 or the project reviewer listed in the cover letter.
