Re: Package Boilers
Carrollton, Dallas County
Account ID No. DB-0484-S

Dear Mr. Stansbury:

This is in response to your exemption registrations, Form PI-7, concerning the 150 and 350-horsepower (hp) boilers at your plant in Carrollton, Dallas County. We understand that you wish to register these boilers under the current exemption requirements for these units.

After evaluation of the information which you have furnished, we have determined that the 150-hp Kewanee model boiler qualifies for exemption from permitting procedures under 30 Texas Administrative Code (TAC) Section 106.183 if constructed and operated as described in your registration request. This exemption was authorized by the Executive Director of the Texas Natural Resource Conservation Commission (TNRCC) pursuant to 30 TAC Chapter 106. A copy of the exemption in effect at the time of this registration is enclosed. You must operate in accordance with all requirements of the enclosed exemption.

As discussed with Mr. Michael Labedis of your office, the 350 hp-Cleaver Brooks boiler does not meet the requirements of the current exemption for boilers. We therefore understand that this boiler will continue to operate under its current special

Re: Package Boilers

exemption status.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all rules and regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Your cooperation in this matter is appreciated. If you have any questions concerning this exemption, please call Mr. Angel Tomasino of our Office of Air Quality, New Source Review Permits Division at (512) 239-1593 or write him at Texas Natural Resource Conservation Commission, Office of Air Quality, New Source Review Permits Division (MC-162), P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

Victoria J. L. Hsu, P.E.
Director
New Source Review Permits Division
Texas Natural Resource Conservation Commission
