Re: Hickory Island Farms
Mt. Belvieu, Chambers County

Dear Mr. Stegall:

This is in response to your request to register the Hickory Island Farms Non-Hazardous Waste Water Deep Well Disposal Facility near Mt. Belvieu, in Chambers County under Standard Exemption No. 51. The information submitted in support of your request has been evaluated and found to be insufficient to determine whether all the requirements of the standard exemption claimed in your registration request and/or 30 TAC §116.211 (Regulation VI) have been met. Therefore, we cannot confirm your claim of this exemption at this time.

Insufficiencies are summarized below:

Please address how the other areas of the facility (i.e., analytical laboratory, truck rack unloading area, disposal well injection process) will meet the requirements of 30 TAC Section 116.211.

You may resubmit, with appropriate corrections, a new standard exemption registration request (PI-7) or a permit application/amendment (PI-1). To expedite the process at that time, please include all previously-assigned Texas Natural Resource Conservation Commission Account ID, permit, or standard exemption registration numbers in your new submittal.

You are reminded that Sections 382.0518(a) and 382.057 of the Texas Clean Air Act, Texas Health and Safety Code, Chapter 382, provide that a construction permit must be obtained or a standard exemption fully complied with before work is begun on the construction of a new facility or modification of an existing facility that may emit air contaminants.

Mr. Doyle E. Stegall
