Re: Automatic Flame Cutting
Arlington, Tarrant County

Dear Philip L. Daily:

This is in response to your letter dated June 7, 1995, concerning the proposed exemption of a flame cutting process. After evaluation of the information which you have furnished, we have determined that your project is exempt from the permit procedures under Standard Exemption No. 39 if constructed and operated as described in your letter.

This standard exemption was authorized by the Executive Director pursuant to Texas Natural Resource Conservation Commission (TNRCC) Rule 116.211(a) of Regulation VI. A copy of the exemption in effect at the time of this determination is enclosed. You must operate in accordance with all requirements of the enclosed standard exemption.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all air quality Rules and Regulations of the TNRCC and of the U.S. Environmental Protection Agency (EPA) at all times.

If you have any questions concerning this exemption, please contact Mr. Kevin Ellis of our New Source Review Program.

Sincerely,

Gary I. Wallin, P.E.
Manager, Mechanical Section
New Source Review Program (MC-162)

cc: Mr. Jesse Macias, Air Program Manager, Arlington
