Re: Standard Exemption
Registration No. X
Printing Equipment
Irving, Dallas County

Dear Ms. Sanders:

This is in response to your exemption registration, Form PI-7, concerning the proposed construction of a graphic arts complex to contain pre-press operations, flexographic platemaking and sheet-fed press operations in Irving, Dallas County.

After evaluation of the information which you have furnished, we have determined that your proposed construction installation is exempt from permitting procedures under Standard Exemption No. 13 if constructed and operated as described in your application. This standard exemption was authorized by the Executive Director pursuant to Texas Natural Resource Conservation Commission (TNRCC) Rule 116.211, Title 30 Texas Administrative Code Section 116 (commonly known as Regulation VI). You must operate in accordance with all requirements of the standard exemption in effect at the time of this registration (copy attached).

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all air quality Rules and Regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

Ms. Debra L. Sanders -2-

Your cooperation in this matter is appreciated. If you have any questions concerning this exemption, please contact Mr. Jesse R. Alonzo of our Office of Air Quality New Source Review Program.

Sincerely,

Lynn R. Weber, P.E.
