Re: Coil Spring Manufacturer  
Dallas, Dallas County  
Account ID No. DB-0062-C

Dear Mr. Keihle:

This is in response to your letter dated April 8, 1994 concerning the proposed expansion of your coil spring manufacturing facility. After evaluation of the information which you have furnished, we have determined that your project is exempt from permit procedures under Standard Exemptions No. 7, 39, 40, 57, and 102 if constructed and operated as described in your letter. These standard exemptions were authorized by the Executive Director pursuant to Texas Natural Resource Conservation Commission (TNRCC) Rule 116.211(a) of Regulation VI. Copies of the exemptions in effect at the time of this determination are attached. You must operate in accordance with all requirements of the attached standard exemptions.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all air quality Rules and Regulations of the TNRCC and of the U.S. Environmental Protection Agency at all times.

If you have any questions concerning this exemption, please contact Mr. Skeet Payne of our New Source Review Program.

Sincerely,

James E. Crocker, P.E.  
Manager, Combustion Section  
New Source Review Program
