Re: Drying Section of the Aqueous
Washing Equipment
Dallas, Dallas County
Account ID No. DB-1072-P

Dear Mr. Ragsdill:

This is in response to your letter dated September 28, 1994 concerning the proposed aqueous washing machine that you intend to install at Sanden's Dallas Plant. After evaluation of the information which you have furnished, we have determined that your project is exempt from the permit procedures under Standard Exemption No. 7 if constructed and operated as described in your letter. This standard exemption was authorized by the Executive Director pursuant to Texas Natural Resource Conservation Commission (TNRCC) Rule 116.211(a) of Regulation VI. A copy of the exemption in effect at the time of this determination is attached. You must operate in accordance with all requirements of the enclosed standard exemption.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all air quality Rules and Regulations of the TNRCC and of the U.S. Environmental Protection Agency (EPA) at all times.

If you have any questions concerning this exemption, please contact Mr. Erik Hendrickson of our New Source Review Program at (512) 239-1095.

Sincerely,

James E. Crocker, P.E.
