Re: Bulk Packaging
 Houston, Harris County

Dear Mr. Jacobs:

This is in response to your letter dated May 9, 1994 concerning the proposed installation of a bulk packaging facility in Houston, Harris County. We understand emissions will not exceed 0.17 tons per year of volatile organic compounds and 0.10 tons per yer of particulate matter.

After evaluation of the information which you have furnished, we have determined that your project is exempt from the permit procedures under Standard Exemption Nos. 51 and 106 if constructed and operated as described in your letter. These standard exemptions were authorized by the Executive Director pursuant to Texas Natural Resource Conservation Commission (TNRCC) Rule 116.211(a) of Regulation VI. Copies of these exemptions in effect at the time of this determination are attached. You must operate in accordance with all requirements of the attached standard exemptions.

You are reminded that regardless of whether a permit is required, these facilities must be in compliance with all air quality Rules and Regulations of the TNRCC and of the U.S. Environmental Protection Agency (EPA) at all times.

If you have any questions concerning this exemption, please contact Mr. Monico Banda of our New Source Review Program.

Sincerely,

Susan Blevins, P.E.
Manager, Chemical Section
