Dear Mr. Cook:

The Texas Commission on Environmental Quality (TCEQ) has reviewed the above-referenced report-drinking water survey report submitted in accordance with Section 26.408(b) of the Texas Water Code. According to the Drinking Water Survey Report (DWSR), the results of the survey documented no private drinking water wells confirmed within 0.25 miles of the above-referenced property. Based on our review, the DWSR, dated April 12, 2019, is approved and no future action is required in response to Section 26.408(b) of the Texas Water Code.

Please note that it is the continuing obligation of persons associated with a site or facility to ensure that industrial solid waste and/or municipal hazardous waste are managed in such a way that it does not cause a discharge of waste or an imminent threat of discharge, nor a nuisance or an endangerment to either human health or the environment as required by 30 TAC § 335.4. Be advised that the burden remains upon Athlon Solutions LLC. to take necessary and authorized action to correct such conditions whenever they exist.

Questions concerning this letter should be directed to me at (512) 239-6178. When responding by mail, please submit an original and one copy of all correspondence and reports to the TCEQ Remediation Division at Mail Code MC-127 with an additional copy submitted to the local TCEQ Region Office. The information in the reference block should be included in all submittals.

Sincerely,

A handwritten signature in black ink, appearing to read "Estefani D. Jimenez".
