Subject: Request to Plug and Abandon 5 Monitoring Wells VCP #945
Attachments: Exhibit C Figure 1 11882.pdf

Hi Joe,

As part of the semi-annual sampling event Forney has been asked by the onsite property owner to plug and abandon any monitoring wells not specifically associated with the respective Restrictive Covenant or Response Action Plan. In total five monitoring wells (MW-2, MW-3, MW6, MW-11 and MW-13) have been identified for potential plug and abandonment, if TCEQ is in agreement. If you respond before next Friday October 11, 2019 we can incorporate the plug and abandonment activities into the semi-annual sampling event scheduled for the week of October 14th, otherwise we can incorporate the activities in a later event. Attached is a figure showing the locations of the current monitoring wells on the onsite property.

Sincerely,

Alicia Fogg
Project Manager
