HOUSTON, TEXAS 77210-4324
Via email

Subject: ERC Creditability Review
ERC Certificate(s): 4106
Project Number: 418006

Dear Graham W. Bacon:

This letter is in response to the Application for Creditability Review of Emission Credits submitted on March 28, 2023, requesting review of the volatile organic compounds (VOC) emission reduction credits (ERCs) in certificate 4106.

The Texas Commission on Environmental Quality (TCEQ) has determined that as of April 5, 2023 there have been no regulatory changes that decrease the certified amount of ERCs available in certificate 4106. Changes to the representations made in the original ERC application or future regulatory actions could affect the amount of credits available for use in the certificate.

Additional information regarding this project and the site's portfolio is available online at https://www2.tceq.texas.gov/airperm/index.cfm?fuseaction=ebt_dpa.start. If you have questions concerning this project or the EBT program, please contact Matthew Hager at Matthew.Hager@tceq.texas.gov, or write to the TCEQ, Office of Air, Air Permits Division, MC-163, P.O. Box 13087, Austin, Texas 78711-3087.

Sincerely,

A handwritten signature in black ink, appearing to read "Samuel Short", followed by a long horizontal line.

Samuel Short, Deputy Director
Air Permits Division
Office of Air

Emission Reduction Credit (ERC) Creditability Technical Review

Project Number:	418006	Project Manager:	Matthew Hager
Customer Reference No.:	CN603211277	Company Name:	Enterprise Products Operating LLC
Regulated Entity Reference No.:	RN102323268	Site Name:	Enterprise Mont Belvieu Complex
Portfolio Number:	P3271	County:	Chambers

Project Overview

Enterprise Products Operating LLC submitted a Creditability Review of Emissions Credits application on March 28, 2023 for the review of ERC Certificate 4106.

ERC Creditability

Certificate 4106, 3.9 tpy VOC

Arrowhead Pipeline LP generated a total of 3.9 tpy of VOC ERCs from the permanent shutdown of the Old Ocean Gas Plant (RN100212000) in ERC generation, Project 413641. The original generator certificate was 3534. This certificate has been traded in full multiple times, most recently in project 417823 when the full amount was traded to Enterprise Products Operating LLC in certificate 4106.

The credits on originator certificate 3534 have not previously been re-reviewed.

Table 1 below lists the regulations that were evaluated in this project. There have been no new regulatory provisions that would have affected the facilities since Project 413641 and the submission of this use project. Therefore, Certificate Number 4106 still retains the certified amount of 3.9 tpy and the full amount is available for use in this project.

Table 1: Regulatory Review

FIN	EPN	Citations and Regulations	Verified	Last Revision Date
Site-Wide	Site-Wide	40 CFR Part 63, Subpart A: §63.2, <i>Major Source</i>	The Old Ocean Gas Plant was an area source of HAP. The site-wide HAP emissions reported in 2014 and 2015 emissions inventory reports document that the site was not a major source for HAP. The speciated HAPs were each below 10 tpy and the total combined HAPs were below 15 tpy. The sum of HAP emission sources associated with the Old Ocean Gas Plant are below the thresholds for major source for each individual HAP and the total combined. ▪ 2014 Total HAP = 7.9751 tons ▪ 2015 Total HAP = 7.0874 tons Emissions summary tables from the 2014 and 2015 report years documenting HAP emissions are available in the project file under the Regulatory Review bookmark under Emissions Summary.	11/19/2020

FIN	EPN	Citations and Regulations	Verified	Last Revision Date
			This rule was amended in 2020 and affected major source reclassification, however the definition of Major Source as used in this application has not been changed.	
All Facilities	All Facilities	NSR 79228	The MAERT established emission limits for each facility. The ERC generation amounts were limited to the permit emission limits. The permit was voided in 2019.	4/1/2019
E-23 E-24	E-23 E-24	40 CFR Part 60, Subpart JJJJ: §60.4233(f)(4) §60.4243(b)(2)(ii) §60.4244 §60.4245	Compressor Engines Conducted initial and annual performance stack tests. Records documenting compliance with applicable emission standards were maintained and stack tests summaries are available in the generator project (413641) project file under the Regulatory Review bookmark under Stack Tests. §60.4243 was updated in 2022, however the identified citation was unchanged and did not impact NOx or VOC limits. §60.4245 was updated in 2022, however there was no impact on NOx or VOC limits.	§60.4233: 06/28/2011 §60.4243: 8/10/2022 §60.4244: 01/18/2008 §60.4245: 8/10/2022
E-23 E-24	E-23 E-24	40 CFR Part 60, Subpart OOOO: §60.5365(c) §60.5385	Compressor Engines Compliance with NSPS OOOO was maintained for the reciprocating compressor affected facilities, including compliance with rod packing replacements, notification and recordkeeping requirements.	§60.5365: 06/03/2016 §60.5385: 12/31/2014
E-23 E-24	E-23 E-24	40 CFR Part 63 Subpart ZZZZ: §63.6590(c)(1)	Compressor Engines The stationary RICE commenced construction/reconstruction after June 12, 2006, is located at an area source of HAP, and is demonstrating compliance with MACT ZZZZ by meeting the requirements of NSPS JJJJ.	01/30/2013
E-23 E-24	E-23 E-24	40 CFR Part 63, Subpart PPPP: §63.9285	Compressor Engines The engines are not test cells/stands and are not located at a major source of HAP emissions. There are no requirements under this subpart.	05/27/2003

FIN	EPN	Citations and Regulations	Verified	Last Revision Date
E-23 E-24	E-23 E-24	30 TAC Chapter 115, Subchapter B, Division 7 §115.173	This rule applies to compressors. While it appears the affected engine/compressors may have been combined at this site, it is our understanding from the company's response to questions in the generator project that the site is a natural gas processing plant not located before the point of custody transfer (i.e., the plant is not owned by the gas producer), and therefore the units are not subject to this regulation.	7/21/2021

Conclusion

As of the submission date of this project, the ERCs on Certificate 4106 have not devalued.

Hi Pranav,

Thank you for your response; however, please note that the 60 day timeline for ERC Intent to Use is based on the assumption that the permit will be issued within this time. We often have projects that go beyond 60 days processing time, if the permit is not issued.

Do you know with certainty if Permit 107523 will be issued before April 22? If not, I would recommend requesting the Creditability Review (EC-2).

Thanks,

Melissa Ruano

Melissa,

Thanks for the response. We can wait at least till 60 days of submission (22nd April)

If needed we will fill out EC-2 and send out to you.

Thanks.

-Pranav

Subject: [EXTERNAL] RE: Credibility Review

[Use caution with links/attachments]

Good Morning,

Thank you for your email. From your discussions and correspondence with Matthew, I understand that you are seeking expedited review of ERC Intent to Use Project 417835 (Certificates 4106 and 3918). If this is incorrect, please let me know.

Creditability review is completed as part of our ERC Intent to Use process. Our target for ERC Intent to Use is 60 days from the date of submission; however, this may take longer depending on the date of permit issuance. I discussed with our management and we do not feel at ease with only approving

the creditability portion of the ERC Intent to Use without approving the entire use project, which would be challenging in this situation, since we understand that the permit has not yet been issued.

What we can do is process and approve a Creditability Review project only. For this, we ask that you complete and submit via email the attached Form EC-2 to request creditability review for Certificates 4106 and 3918. Once you submit the form, we will complete the Credibility Review as a separate project. Please note that our normal target date for Creditability Review is also 60 days; however, as we've already begun the process for Project 417835, we can commit towards completing the project by the end of next week.

If all you require is Creditability Review, please submit the attached form. However, if you require that the full ERC Intent to Use to be approved in order to receive payment for the credits, please let me know and I will discuss with our management.

Sincerely,

Melissa Ruano

Matthew,

Can you confirm that these are valid and passed credibility review. The seller is asking to get paid and we cannot until it is confirmed.

Thanks.

Good Morning Beatriz,

I have sent this item for review with my management. I do not know when exactly it will be complete at this time but hope to have an update for you soon.

Let me know if you have any questions. Thanks!

Thank you
