Mr. Partee,

Permico Midstream Partners applied for a Standard Permit in January of 2019 and it was subsequently issued but Permico did not start construction within 18 months. After receiving several permit extensions and the permit expired in August of 2023. Permico is actively pursuing the project and is re-applying for a new Standard Permit. The location and design has not changed and there has been no new construction within the proximity of the project site. As a result, we are submitting the same permit application that was used in 2019. If you have any questions please reach out to us.

Best Regards,

Ron Chamness

VP Business Development
