Texas Commission on Environmental Quality
Auto Body Refinishing Facility
Air Permits by Rule (PBR) Checklist
Title 30 Texas Administrative Code § 106.436

Check the most appropriate answer and include any additional information in the spaces provided. If additional space is needed, please include an extra page and reference the rule number. The PBR forms, tables, checklists, and guidance documents are available from the TCEQ, Air Permits Division Web site at:

www.tceq.texas.gov/permitting/air/nav/air_pbr.html.

This PBR (§ 106.436) requires registration with the commission's Office of Permitting, Remediation, and Registration in Austin before construction begins. The facility can be registered by completing [Form PI-7](#), "Registration for Permits by Rule," or [Form PI-7-CERT](#), "Certification, and Registration for Permits by Rule." This checklist should accompany the registration form.

SECTION I The total coating and solvent usage rate is less than a half pint per hour. (*Registration is not required*)

SECTION II The total coating and solvent usage rate is less than two gallons per week. (*Registration is not required*)

SECTION III The total coating and solvent usage rate is greater than two gallons per week. (*Registration is required*)

Note: If the facility is subject to SECTION III, an approved registration letter must be received from the executive director before construction of the facility begins.

Record Keeping: In order to demonstrate compliance with the general and specific requirements of this PBR, the owner or operator of the shop must set up and maintain a centralized recordkeeping system that includes Material Safety Data Sheets (MSDS), monthly coatings purchases or usage records, and hazardous waste management records, and keep records for a consecutive 24-month period. The registrant should also become familiar with the additional record keeping requirements in [30 TAC § 106.8](#). The records must be made available immediately upon request to the commission or any air pollution control program having jurisdiction. If you have any question about the type of records that should be maintained, contact the Air Program in the [TCEQ Regional Office](#) for the region in which the site is located.

Recommended Calculations Methods: In order to demonstrate compliance with this PBR, the registrant may use the emission factors for each air contaminant from the EPA Compilation of Air Pollutant Emission Factors (AP-42), Fifth Edition, Volume 1, Chapter 4: Evaporation Loss Sources at: www.epa.gov/ttn/chief/ap42/index.html.
