Dear Craig J Francisco Jr.:

This letter is in response to the Notice of Use of Discrete Emission Credits submitted on March 25, 2024, regarding the use of nitrogen oxides (NO_x) discrete emission reduction credits (DERCs) for compliance with the Maximum Allowable Emissions Rate Table limits in Nonattainment New Source Review Permit 45430 for facility identification numbers HA-S3, HA-S4, and HA-S5. The Texas Commission on Environmental Quality (TCEQ) is approving the DERC use as summarized below. Any retained certificates are now available for future use or trade as allowed under 30 Texas Administrative Code Chapter 101, Subchapter H, Division 4.

VIII. Protocol
Protocol used to calculate DERC: See the calculation below:
Note: Attach the actual calculations that were used to determine the amounts of DERCs needed to this form.

Protocol used to calculate DERC:

Note: No DERCs were utilized during the intended use period of 01/01/2023 through 12/31/2023.

Below is an example of the calculations used to determine the DERCs needed for HA-S3. The same calculations were completed for HA-S4 and HA-S5.

The tons of DERCs required are estimated by subtracting the Regulated Total Emissions of 91.9 tons based on a 12-month period, from the Expected Total Emissions of 101.9 tons. Expected Total Emissions were determined by a 10 tons increase in NOx on HA-S3 for the release to the environment. The formula is below:

$$\text{DERCs} = \text{Expected Total Emissions (tons)} - \text{Regulated Total Emissions (tons)}$$

$$\text{Expected Total Emissions (tons)} = 0.037 \text{ lb/MMBtu} \times 5,508,108.1 \text{ MMBtu} \times 1 \text{ ton}/2000 \text{ lbs} = 101.9 \text{ tons}$$

The actual demonstration of DERCs used will be calculated by multiplying the annual emission rate (AER), by the total heat input, for the proceeding 12-month period and then subtracting the Regulated Total Emissions.

$$\text{DERCs Used} = ((\text{AER} \times \text{Total Heat Input})/2000) - (\text{Regulated Total Emissions})$$

Hi all,

Vinnie – Thank you for taking the time to call me and explain the situation. I still plan on looking at your STEERS account to see if I am able to give more insight on why Craig isn't showing up as the AAR on our end. I'm off a bit early today, so I will get back to you by tomorrow regarding STEERS. I'm sorry that's been causing you two trouble and I appreciate the two of you working with me to get everything figured out.

Based on the information you provided and when Craig is able to confirm that he is the AAR for P3917, we should be good to go.

Thank you,

Natalie,

Following our conversation, I have attached Craig Francisco's SPA as the AAR for P3917 EBT program, and Craig has updated and signed the contact information on the Copy of Record.

Craig, kindly confirm to Natalie that you are the AAR for portfolio P3917.

Thanks,
Vinnie
