Dennis,  
I visited the site yesterday (December 10, 2009). Mr. Nichols was very helpful and was able to fill in a few gaps. All site monitor wells are still intact. Working on the report over the next couple of days. We will probably be recommending an updated groundwater monitoring event plus resampling to confirm the groundwater TDS concentration.  
Thanks,  
Dave

David

How is it going with LPST 109685. Any luck on the site visit and access? Let me know if you need anything from me.  
Have a very merry Christmas season.

Dennis Rogers
