Good morning,

Thank you for the additional information. Please also address the following:

- Clarify if there are any associated fugitives with this project.

Failure to submit all of the requested information by **July 17, 2024** may result in the TCEQ closing the application with a deficiency. After TCEQ closes the application, you may re-apply through STEERS by filing a new application Form PI-7/PI-7 CERT (General Application for Registration for Permits by Rule) and any additional information necessary to demonstrate compliance with the requirements in 30 TAC Chapter 106. TCEQ will retain the original permit fee for six months and you will not need to submit additional fees with the new application if the original fee was paid correctly.

If you have questions or would like to discuss this project over the phone, feel free to contact me.

Ms. Kyser - TRICORD Consulting LLC is assisting Ms. Ashcraft with the PBR authorization for the totes at the Celanese Bay City Plant. Based on your request, the totes would be built under PBR 106.472 and the mixtures being stored would be authorized under 106.261/262.

Please let us know if you have any additional questions or concerns.

Thank you,

Nelwyn Mohrmann

Good afternoon,

I am the TCEQ Air Permit Reviewer assigned to the PBR Permit No. 176760 / Project No. 375829 at Celanese Ltd. and Celanese Bay City Plant in Matagorda County, Texas. You have been identified as a Technical Contact.

I have completed my initial review for this project and will need additional information/clarification before I can proceed with my review. Please address the following:

- PBRs 106.261-262 may be claimed to authorize emissions of chemicals not included in PBRs 106.472-106.478 while construction of the tank will be authorized under PBR 106.472-106.478.

- Please confirm which PBR from the 470 series will be claimed to authorize the construction of the totes onsite.

Failure to submit all of the requested information by **July 9, 2024** may result in the TCEQ closing the application with a deficiency. After TCEQ closes the application, you may re-apply through STEERS by filing a new application Form PI-7/PI-7 CERT (General Application for Registration for Permits by Rule) and any additional information necessary to demonstrate compliance with the requirements in 30 TAC Chapter 106.
