Good morning, Ms. Kyser – Thank you for TCEQ's prompt review of GCGV's request for a Permit By Rule 106.261 and 2.62. GCGV has re-created the request for additional information in italics along with our responses in blue.

*"...Please address the following:"*

- *The provided speciation shows that the increase in emissions being authorized with this project is <0.01 tpy of VOC, while the emission summary table shows the total permitted emissions for EPN E\_FUG, C\_FUG under NSR Permit No. 146425. This projects emission summary should include emissions under 106.261/262.*
  - *Provide an updated emission summary table that shows just the increase in emissions being authorized with this project. The speciated VOC total from the 106.261/262 workbook should match the total represented on the emission summary table.*

Enclosed is a summary table associated with PBR 177270 [Project Number 378624]. Please note that facility has authorization for additional emission rates for EPN E\_FUG, C\_FUG under New Source Review (NSR) Permit Number 146425.

- *Clarify if any Federal Requirements are applicable to this project.*

The fugitive components for this project are subject to 40 CFR 63 Subpart UU.

Please let me know if you have any questions.

Regards,

Good morning,

I am the TCEQ Air Permit Reviewer assigned to the PBR Permit No. 177270 / Project No. 378624 at Gulf Coast Growth Ventures LLC and Gulf Coast Growth Ventures Project in San Patricio County, Texas. You have been identified as a Technical Contact.

I have completed my initial review for this project and will need additional information/clarification before I can proceed with my review. Please address the following:

- The provided speciation shows that the increase in emissions being authorized with this project is <0.01 tpy of VOC, while the emission summary table shows the total permitted emissions for EPN E\_FUG, C\_FUG under NSR Permit No. 146425. This projects emission summary should include emissions under 106.261/262.
  - Provide an updated emission summary table that shows just the increase in emissions being authorized with this project. The speciated VOC total from the 106.261/262 workbook should match the total represented on the emission summary table.
- Clarify if any Federal Requirements are applicable to this project.

Failure to submit all of the requested information by **August 28, 2024** may result in the TCEQ closing the application with a deficiency. After TCEQ closes the application, you may re-apply through STEERS by filing a new application Form PI-7/PI-7 CERT (General Application for Registration for Permits by Rule) and any additional information necessary to demonstrate compliance with the requirements in 30 TAC Chapter 106. TCEQ will retain the original permit fee for six months and you will not need to submit additional fees with the new application if the original fee was paid correctly.

If you have questions or would like to discuss this project over the phone, feel free to contact me.
