## LPST CORRECTIVE ACTION RESPONSE FORM

LPST-ID: 099673  
7/22/98 Proposal For: SITE CLOSURE

Pursuant to 30 TAC Section 334.82 (b), you are required to notify all parties affected by the contamination. If you determine that contamination from the release has migrated off-site, or if you are required by the TNRCC to conduct further assessment or other corrective actions off-site, then you are required to notify the affected landowner(s) within 30 days of documenting the impact. Please note that landowners may include state and local owners of right-of-way properties. For the purpose of this requirement, notice shall be through any means described in 30 TAC Section 334.82 (a). Please provide documentation that the affected landowner(s) has/have been notified within 30 days of notification. **Please note that failure to notify affected parties as required herein is grounds for formal enforcement proceedings.**

Please note that preapproval of this activity DOES NOT guarantee reimbursement. Eligibility is determined at the time of reimbursement application review. If the release is eligible, the preapproved amount is the maximum allowable for the proposed activities. The actual amount of reimbursement will be determined after the completed reimbursement application and all related receipts and invoices are submitted, and the completed activity is subject to technical and and reimbursable cost review. In all instances, the completed work must be technically justifiable and should serve to advance the site in the corrective action process. The amount of preapproved work performed should be based on completion of the activity's objectives. Additionally, please also note that preapproved amounts include all eligible markup.

Claims for reimbursement should only be submitted after the completion of an annual cycle for remediation system operation and maintenance, and quarterly groundwater monitoring unless a more frequent filing period is previously approved by the PST Reimbursement Section. The Reimbursement Section can be reached at 512/239-2001.
